Author Index

Anderson, M.A., see Tiscareno-Lechuga, F. 33
Andersson, C., Nikitidis, A., Hjortkjær, J. and Heinrich, B.
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium–phosphine complex 345
Armor, J.N., see Farris, T.S. 25
Avila, P., see Blanco, J. 331
Bailey, J.K., see Raman, N.K. 65
Bautista, F.M., Campelo, J.M., Garcia, A., Luna, D., Marinas, J.M. and Romero, A.A.
$AlPO_4$–Al_2O_3 catalysts with low alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
Belousov, V.M., see Zazhigalov, V.A. 135
Bessell, S.
Support effects in cobalt-based Fischer–Tropsch catalysis 253
Bhattacharyya, K.G., see Talukdar, A.K. 229
Blanco, J., Avila, P. and Fierro, J.L.G.
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
Brinker, C.J., see Raman, N.K. 65
Brückman, K., Grzybowska, B., Che, M. and Tatibouët, J.M.
Methanol oxidation on MoO_3/TiO_2 catalysts 279
Burch, R., Chalker, S. and Hibble, S.J.
The role of chlorine in the partial oxidation of methane to ethene on MgO catalysts 289
Cai, Y., see Ozkan, U.S. 365
Campelo, J.M., see Bautista, F.M. 175
Chalker, S., see Burch, R. 289
Chang, Y., Somorjai, G.A. and Heinemann, H.
Oxydehydrogenation of ethane over ZSM-5 zeolite catalysts Effect of steam 305
Che, M., see Brückman, K. 279
Cho, N.-S., see Jun, K.-W. 269
Cornet, D., see Szabo, J. 319
Dalmon, J.-A., see Uzio, D. 83
Duan, Z., see Raman, N.K. 65
Ermilova, M.M., see Gryaznov, V.M. 15
Farris, T.S. and Armor, J.N.
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
Fierro, J.L.G., see Blanco, J. 331
Garcia, A., see Bautista, F.M. 175
Gestel, J.v., see Szabo, J. 319
Giroir-Fendler, A., see Uzio, D. 83
Gryaznov, V.M., Serebryannikova, O.S., Serov, Yu.M., Ermilova, M.M., Karavanov, A.N., Mischenko, A.P. and Orekhova, N.V.
Preparation and catalysis over palladium composite membranes 15
Grzybowska, B., see Brückman, K. 279
Haber, J., see Zazhigalov, V.A. 135
Hampden-Smith, M., see Raman, N.K. 65
Headley, T.J., see Raman, N.K. 65
Heinemann, H., see Chang, Y. 305
Heinrich, B., see Andersson, C. 345
Hibble, S.J., see Burch, R. 289
Hill, Jr., C.G., see Tiscareno-Lechuga, F. 33
Hjortkjær, J., see Andersson, C. 345
Inaya, Y., see Kimura, H. 217
Itoh, H., Nagano, S., Takeda, K. and Kikuchi, E.
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
Joly, J.-P. and Perrard, A.
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
Jun, K.-W., Lee, K.-W., Shim, E.-K. and Cho, N.-S.
Selective oxidation of cyclohexane by an iron–palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
Karavanov, A.N., see Gryaznov, V.M. 15
Katsuno, H., see Sugimoto, M. 201
Kazumi, Y., see Kimura, H. 217
Kikuchi, E., see Matsuda, T. 3
Kikuchi, E., see Itoh, H. 125
Kim, H., see Suh, H.-M. L7
Kim, J.-J., see Song, I.K. 53
Kimura, H., Tsuto, K., Wakisaka, T., Kazumi, Y. and Inaya, Y.

Selective oxidation of glycerol on a platinum–bismuth catalyst 217
Koike, I., see Matsuda, T. 3
Komashko, G.A., see Zazhigalov, V.A. 135
Kubo, N., see Matsuda, T. 3
Kumbhar, P.S.
Nickel supported on titania–silica Preparation, characterisation and activity for liquid-phase hydrogenation of acetophenone 241
Kumthekar, M.W., see Ozkan, U.S. 365
Lee, C.S., Park, T.J. and Lee, W.Y.
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
Lee, K.-W., see Jun, K.-W. 269
Lee, W.Y., see Song, I.K. 53
Lee, W.Y., see Lee, C.S. 151

Verduyn, A.J., see Van der Pol, A.J.H.P. L13
Wakisaka, T., see Kimura, H. 217
Walendziewski, J. and Trawczyński, J.
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
Ward, T.L., see Raman, N.K. 65
Weng, T. and Wolf, E.E.
Partial oxidation of methane on Mo/Sn/P silica supported catalysts 383
Wolf, E.E., see Weng, T. 383
Yamada, H., Niwa, M. and Murakami, Y.
Methanol oxidation on a molybdena monolayer supported on iron oxide 113
Zazhigalov, V.A., Haber, J., Stoch, J., Pyatnitzkaya, A.I., Komashko, G.A. and Belousov, V.M.
Properties of cobalt-promoted $(VO)_2P_2O_7$ in the oxidation of butane 135

Applied Catalysis, 96 (1993)
Elsevier Science Publishers B.V., Amsterdam — Printed in The Netherlands

Subject Index

acetophenone hydrogenation
Nickel supported on titania–silica Preparation, characterisation and activity for liquid-phase hydrogenation of acetophenone 241
acidity
Support effects in cobalt-based Fischer–Tropsch catalysis 253
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
active carbon
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
alkaline treatment
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
alkenes
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
alkylation
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
alumina
$AlPO_4$–Al_2O_3 catalysts with low alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
Hydrogenation of phenol over supported platinum and palladium catalysts 229
alumina supports
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
aluminum phosphate–alumina
$AlPO_4$–Al_2O_3 catalysts with low alloys
Preparation and catalysis over palladium composite membranes 15
alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
ammonia
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
ammonia desorption
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
ammonia oxidation
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
aqueous ammonia
$AlPO_4$–Al_2O_3 catalysts with low alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
bismuth
Selective oxidation of glycerol on a platinum–bismuth catalyst 217
butane oxidation
Properties of cobalt-promoted $(VO)_2P_2O_7$ in the oxidation of butane 135
butene isomerization
Isomerization of n-butenes to isobutene catalyzed by fluorinated alumina Reaction kinetics 319
carbon black
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
carbon monoxide/hydrogen
Preparation and catalysis over palladium composite membranes 15
carbon monoxide hydrogenation
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
catalyst characterization (IR
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
catalyst characterization (structure
$AlPO_4$–Al_2O_3 catalysts with low alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
catalyst dispersion
Catalyst dispersion on supported ultrami-

croporous inorganic membranes using derivatized silylation agents 65
ceramic membrane
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
characterization (SEM-EDX
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
chlorine
The role of chlorine in the partial oxidation of methane to ethene on MgO catalysts 289
coatings
Preparation and catalysis over palladium composite membranes 15
cobalt
Support effects in cobalt-based Fischer-Tropsch catalysis 253
cobalt promotion
Properties of cobalt-promoted $(VO)_2P_2O_7$ in the oxidation of butane 135
composites
Preparation and catalysis over palladium composite membranes 15
Catalyst dispersion on supported ultramicroporous inorganic membranes using derivatized silylation agents 65
copper oxide
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
cyclohexane
Selective oxidation of cyclohexane by an iron-palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
cyclohexanol
Selective oxidation of cyclohexane by an iron-palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
cyclohexanone
Selective oxidation of cyclohexane by an iron-palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
cylcohexene
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
deactivation
Isomerization of n-butenes to isobutene catalyzed by fluorinated alumina Reaction kinetics 319
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium-phosphine complex 345
dehydrogenation
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
$DeNO_x$
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
dihydroxyacetone
Selective oxidation of glycerol on a platinum-bismuth catalyst 217
dispersion
Support effects in cobalt-based Fischer-Tropsch catalysis 253
double structure catalyst
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
ethane
Oxydehydrogenation of ethane over ZSM-5 zeolite catalysts Effect of steam 305
ethanol
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
ethylbenzene
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
Fischer-Tropsch catalysis
Support effects in cobalt-based Fischer-Tropsch catalysis 253
Fischer-Tropsch synthesis
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
fluorinated alumina
Isomerization of n-butenes to isobutene

catalyzed by fluorinated alumina Reaction kinetics 319
GC analysis
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
glycerol
Selective oxidation of glycerol on a platinum–bismuth catalyst 217
halocarbon treatment
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
heteropoly acid
Methyl t-butyl ether decomposition in an inert membrane reactor composed of 12-tungstophosphoric acid catalyst and polyphenylene oxide membrane 53
hexane aromatization
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
1-hexene
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium–phosphine complex 345
HPLC analysis
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
hydrodesulfurization
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
hydroformylation
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium–phosphine complex 345
hydrogenation
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
Hydrogenation of phenol over supported platinum and palladium catalysts 229
hydrothermal crystallization
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
hydroxylation of phenol
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
iron–manganese
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
iron oxide
Methanol oxidation on a molybdena monolayer supported on iron oxide 113
iron oxide–silica
Selective oxidation of cyclohexane by an iron–palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
iron–palladium
Selective oxidation of cyclohexane by an iron–palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
isobutane
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
isobutene
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
Methyl t-butyl ether decomposition in an inert membrane reactor composed of 12-tungstophosphoric acid catalyst and polyphenylene oxide membrane 53
isobutyraldehyde
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
large pores
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
lead
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7

lithium
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
magnesia
The role of chlorine in the partial oxidation of methane to ethene on MgO catalysts 289
magnesium oxide
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
membrane
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
membrane reactor
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
Catalyst dispersion on supported ultramicroporous inorganic membranes using derivatized silylation agents 65
membranes
Preparation and catalysis over palladium composite membranes 15
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
Methyl t-butyl ether decomposition in an inert membrane reactor composed of 12-tungstophosphoric acid catalyst and polyphenylene oxide membrane 53
Catalyst dispersion on supported ultramicroporous inorganic membranes using derivatized silylation agents 65
metal elution
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium–phosphine complex 345
methane
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
methane partial oxidation
The role of chlorine in the partial oxidation of methane to ethene on MgO catalysts 289
Partial oxidation of methane on Mo/Sn/P silica supported catalysts 383
methanol
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
methanol oxidation
Methanol oxidation on a molybdena monolayer supported on iron oxide 113
Methanol oxidation on MoO_3/TiO_2 catalysts 279
methyl t-butyl ether
Methyl t-butyl ether decomposition in an inert membrane reactor composed of 12-tungstophosphoric acid catalyst and polyphenylene oxide membrane 53
mixed oxides
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
molybdates
Partial oxidation of methane on Mo/Sn/P silica supported catalysts 383
molybdena
Methanol oxidation on a molybdena monolayer supported on iron oxide 113
monolayer
Methanol oxidation on a molybdena monolayer supported on iron oxide 113
MoO_3/TiO_2
Methanol oxidation on MoO_3/TiO_2 catalysts 279
mordenite
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
nitric oxide
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
nitrogen
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
nitrous oxide
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
NO_x removal
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331

oxidative methylation
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
oxydehydrogenation
Oxydehydrogenation of ethane over ZSM-5 zeolite catalysts Effect of steam 305
palladium
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
Hydrogenation of phenol over supported platinum and palladium catalysts 229
palladium alloys
Liquid-phase catalytic hydrogenation using palladium alloy membranes 25
palladium-cobalt
Preparation and catalysis over palladium composite membranes 15
palladium-indium-ruthenium
Preparation and catalysis over palladium composite membranes 15
palladium-ruthenium
Preparation and catalysis over palladium composite membranes 15
para-ethyltoluene)
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
pentadiene-1,3 hydrogenation
Preparation and catalysis over palladium composite membranes 15
phenol
Hydrogenation of phenol over supported platinum and palladium catalysts 229
phenol hydroxylation
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
phosphorus promotion
Partial oxidation of methane on Mo/Sn/P silica supported catalysts 383
platinum
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
Selective oxidation of glycerol on a platinum-bismuth catalyst 217
Hydrogenation of phenol over supported platinum and palladium catalysts 229
platinum/alumina
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
polymer bound
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium-phosphine complex 345
polymerization inhibitor
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
polyphenylene oxide
Methyl t-butyl ether decomposition in an inert membrane reactor composed of 12-tungstophosphoric acid catalyst and polyphenylene oxide membrane 53
pore regulating agents
Preparation of large pore alumina supports for hydrodesulfurization catalysts 163
porosity
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
Raman spectroscopy
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
rhodium
Catalyst dispersion on supported ultramicroporous inorganic membranes using derivatized silylation agents 65
Continuous liquid-phase hydroformylation of 1-hexene with a poly-TRIM bound rhodium-phosphine complex 345
selective catalytic reduction
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
selective oxidation
Selective oxidation of glycerol on a platinum-bismuth catalyst 217
Selective oxidation of cyclohexane by an iron-palladium bicatalytic system under mild conditions; iron oxide/silica catalysts 269
selectivity (formaldehyde)
Partial oxidation of methane on Mo/Sn/

P silica supported catalysts 383
selectivity (hydrocarbons)
Support effects in cobalt-based Fischer-Tropsch catalysis 253
selectivity (isobutene)
Isomerization of n-butenes to isobutene catalyzed by fluorinated alumina Reaction kinetics 319
selectivity (*para*-xylene
Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
silylation
Catalyst dispersion on supported ultramicroporous inorganic membranes using derivatized silylation agents 65
single crystal
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
strong metal support interaction
Nickel supported on titania–silica Preparation, characterisation and activity for liquid-phase hydrogenation of acetophenone 241
styrene
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
Experimental studies of the non-oxidative dehydrogenation of ethylbenzene using a membrane reactor 33
support effects
Support effects in cobalt-based Fischer-Tropsch catalysis 253
support effects
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
surface modification
The role of chlorine in the partial oxidation of methane to ethene on MgO catalysts 289
syngas conversion
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
TEM)
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83
temperature-programmed desorption (intermittent)
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
texture)
$AlPO_4$–Al_2O_3 catalysts with low alumina content I. Structural and textural characterization of catalysts obtained with aqueous ammonia 175
tin
Dehydrogenation of isobutane to isobutene in a palladium membrane reactor 3
tin promotion
Partial oxidation of methane on Mo/Sn/P silica supported catalysts 383
titania-alumia
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
titania–silica
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
Nickel supported on titania–silica Preparation, characterisation and activity for liquid-phase hydrogenation of acetophenone 241
titania–silica–zirconia
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
titania–zirconia
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
titanium silicalite 1
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
toluene
Oxidative methylation of toluene with methane over Li/MgO promoted by $Pb_3(PO_4)_2$ L7
Platinum/γ-Al_2O_3 catalytic membrane: Preparation, morphological and catalytic characterizations 83

Alkylation of toluene over double structure ZSM-5 type catalysts covered with a silicalite shell 151
TS-1
Comparison between gas chromatography and high-performance liquid chromatography analysis of the reaction products formed by the hydroxylation of phenol L13
ultrafine particle catalyst
Catalytic properties and crystalline structures of manganese-promoted iron ultrafine particles for liquid-phase hydrogenation of carbon monoxide 125
vanadium oxide
Synthesis of isobutyraldehyde from methanol and ethanol over mixed oxide supported vanadium oxide catalysts L1
Effect of crystal morphology in selective catalytic reduction of nitric oxide over V_2O_5 catalysts 365
vanadium–phosphorus–oxide catalyst
Properties of cobalt-promoted $(VO)_2P_2O_7$ in the oxidation of butane 135
XPS)
Influence of nitrogen dioxide on the selective reduction of NO_x with a catalyst of copper and nickel oxides 331
zeolite L
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
zeolite LTL
Hydrogenation of phenol over supported platinum and palladium catalysts 229
zeolites
Oxydehydrogenation of ethane over ZSM-5 zeolite catalysts Effect of steam 305
Surface acidity of porous catalysts by intermittent temperature-programmed desorption 355
zeolite Y
Improvement of platinum-supported zeolite catalysts for n-hexane aromatization by halocarbon treatment and alkaline soaking 201
ZSM-5
Oxydehydrogenation of ethane over ZSM-5 zeolite catalysts Effect of steam 305
